

Felsted Neighbourhood Plan Review Group

Thursday 27th June, 5:45 pm. URC Hall (Meeting 7)

Agenda

Present:

1. Apologies for Absence:
2. Declaration of Interest:
3. Minutes of the last meeting (Meeting 6) for approval:
4. Matters arising (not on the agenda)
5. Site Selection – Discussion with landowners (Item 14 on work flow)
6. Policy reviews
 - 8.1 Burial ground developments
 - 8.2 Policy revisions
7. Traffic Survey:
8. Treasurer's report
9. Any Other Business

12 DATE OF NEXT MEETING:

ANNEX A

Felsted Neighbourhood Plan Review

Analysis of Drop -In Sessions and Housing Needs Survey

Next Steps for the Review

Drop -In Sessions

Over the two days of the drop-in sessions at the Memorial Hall, the Review Group met around 150 parishioners (137 registered) who viewed and commented on the 18 information boards and the maps of the sites the Group was proposing as *possible* sites for the 95 additional new homes the parish is obliged, by Uttlesford District Council, to accept between now and 2041.

Unsurprisingly, the unanimously expressed opinion was that Felsted '*had enough*' and any further development was undesirable anywhere in the parish. However, it was also accepted that if we had to have more homes, planning where they should be, what they should look like and defining the need they should meet was infinitely preferable to allowing developers free reign.

The Drop-In invited parishioners to consider twelve sites, all of which have been put forward by landowners to UDC as being available for development, and to put coloured dots signifying either their support or objection to each site. Members of the Review Group had well-informed and engaged conversation with many of the attendees, while others were content just to read the information boards and make their decisions.

(Note. Following the Sessions, the housing allocation has been reduced to 84 new homes)

Drop In March 15/16 Analysis

Site No	Brief Site Description	For	Against
Fel 001 RES	Land South of Braintree Rd. Op Chaffix Farm	3	26
Fel 002 RES	Land N/W of Bannister Green	4	29
Fel 003 RES	Land North of Garnetts Lane	24	9
Fel 004 RES	Land S/W of WHG	6	28
Fel 005 RES	Land off Rayne Road	3	38
Fel 006 RES	Land off Rayne Road	5	38
Fel 007 RES	Sunnybrook Farm	14	20
Fel 008 RES	Land S/E Clifford Smith Dr (site1)	10	10
Fel 009 RES	Ditto (site 2)	13	12
Fel 010 RES	Kinvarra B park	23	30
Fel 011/12 RES	Sparlings Farm	7	47
Fel 019/RES	Land at Willows Green	14	18

Alternative Location for the village shop

Attendees were also asked where, if necessary, Linsell's, the village shop and post office could be relocated.

Unsurprisingly, great affection for Linsells and respect for the proprietors was warmly expressed to the RG. There is also understandable concern for the future of the Grade II listed Linsell's premises if economic and or regulatory pressures mean the current shop and post office business needs to relocate.

Concerns about the vibrancy of the village centre have been amplified by the continued lack of occupation and economic activity at the Boote House.

Concern continues to be expressed about the traffic congestion at the Chelmsford Road junction, parking and accessibility in the centre of the village.

Shop /Post Office relocation:

Chelmsford Road **4**
Near the j/w Stebbing Road – former Indian restaurant **5**
On or near the Abbeyfield developments site **8**
On or near the Troy Homes site at Sunnybrook **17**
Rayne Road **2**

Three recurrent concerns

Firstly, it's important to know the Felsted parish boundaries. For example, the large developments west of Priory Bridge on Station Road are in Flitch Green and Little Dunmow parishes, outside of Felsted Parish and are therefore beyond any control or influence we might have through our current neighbourhood plan.

Secondly, there is a consensus that the kinds of home that are being built are often not what local people want. There are too many large 'executive' homes and too few, smaller but nevertheless high quality, spacious homes for downsizers or homes for younger entrants to the housing market. The Review Group will very carefully consider these comments alongside the outcome of the Housing Needs Survey.

Thirdly, there was a broad consensus that development should be phased over the 17 years between now and 2041 and not 'front-loaded'. These comments are entirely in alignment with the Review Group's current thinking, inasmuch as we think the housing need will change over the plan period and should be met incrementally after further Housing Needs Survey's at five year intervals. We don't yet know how phasing can be structured; that is something the Group will now investigate.

Thanks to all who came along and for your kind words and for your sharing our passion for keeping Felsted a wonderful place to live.

The Housing Needs Survey

In brief, the need for affordable *rented* housing units was identified as being for up to nine either 1, 2 or 3-bed units. Housing associations tend to think of the long-term sustainability of schemes, and the possibility of bringing forward more 2-bed units rather than any 1bed units seems preferable.

Should the Review suggest an affordable housing scheme, discussions on finalizing the size, tenure and design will take place with the parish council, any housing association partner and the local authority, to ensure that the right mix is selected.

Smaller, affordable, shared ownership and discounted market sale open market properties were all cited as being needed.

Four respondents answered that they have a special housing need for a physically adapted home leading to a recommendation that if any open market 3-bedroomed bungalows come forward, they should be fully wheelchair accessible.

Five households are currently on either the local authority housing register or Housing Association register. The survey recommended that the Parish Council raise awareness of the need to be on the register amongst the residents of the parish, in order for them to be considered for affordable housing schemes in the future.

As of April 2024, there are currently 33 applicants on the housing register who are residents or have possible connection to the villages with a further 197 with no local connection; further investigation on local connection would be undertaken once a vacancy arises.

The HNS also provide some useful commentary on site selection.

Next Steps for the Review

The next step for the Review Group is to analyse the choices indicated, to combine the results with the outcome of the independent Housing Needs Survey and to define some potential development criteria (which might form the basis of new policies) and begin discussions with landowners who might be able to meet those development criteria.

ANNEX B

Felsted Neighbourhood Plan Review Strategy

The Felsted Neighbourhood Plan was 'made' by the full UDC District Council in February 2020.

The initial driver for the parish council to review the neighbourhood plan came from national planning policy (the National Planning Policy Framework / NPPF), which stated that neighbourhood plans in those local planning authority areas that cannot demonstrate an up to date 5 year supply¹ of deliverable housing sites, are considered to be out of date after 3 years. This mechanism is referred to as the 'tilted balance' which weighs in favour of housing development proposals where there is no 5 year supply of housing land.

In Felsted, from February 2023 onwards, the 'tilted balance' was being increasingly relied upon by applicants for planning permission, and the parish council's ability to object to these proposals, even where those proposals conflicted with the neighbourhood plan policies, was becoming limited. This was being confirmed through decision making at both the Uttlesford District Council level and at through planning appeals that are considered by the Planning Inspectorate.

On this basis, the parish council took the decision to review the neighbourhood plan and informed Uttlesford District Council of this intention in October 2023.

In December 2023, the NPPF was amended, and the time period for neighbourhood plan areas (where those made neighbourhood plans identify land for housing) to avoid the 'tilted balance' was extended from 3 years to 5 years, meaning that our parish enjoys the additional protection the plan provides until at least February 2025.

Although the newly formed Review Group had barely commenced and could have adjourned work, UDC, as part of the District's emerging new Local Plan announced a further allocation to Felsted of 84 new homes (initially 95) required by 2041.

Additionally, two major objectives of the made plan (Bury Farm and Sunnybrook Farm) are in development and will be completed within 12 months. It was therefore considered that the Review should continue, in order to keep pace with the progress on the new Local Plan and to consider new opportunities for delivery.

¹ The '5 Year Housing Supply' is a calculation of whether there is a deliverable supply of homes to meet the identified housing requirement over the next 5 years. The 5 Year Housing Supply is calculated on a rolling basis by the Government, and local planning authorities that do not have an up-to-date local plan which identifies their 5 year supply of housing sites (including housing planning permissions to match), are considered not to meet the requirement for a 5 year supply, and are therefore subject to the tilted balance. In reality, it means that those places are vulnerable to speculative development proposals, with decision-making place significant weight on the delivery of new housing, above other local considerations (including neighbourhood plan policies).

The framework for Review Group's work is as follows:

- The vision and objectives of the 2020 made plan remain relevant, proportionate, and therefore are unchanged.
- The review will identify a site or sites to meet the allocation of up to 84 new homes within the Uttlesford Local Plan, but will also take account of windfall developments which could reduce that number.
- Every attempt will be made to develop policies which allow for phased development over the full 17 years of the allocation period and will be guided by the results of Housing Needs Surveys conducted at 5-year intervals, the first have been conducted in 2024.
- The homes permitted will closely reflect the identified housing need.
- Changes to other policies within the made plan will only be made where circumstances have changed, e.g. where planned developments have been or are about to be completed, where experience of planning decisions indicate that the plan could be more effective or circumstances indicate that change is otherwise required.
- Opportunities to achieve other neighbourhood plan objectives will be considered and explored, provided that the overall strategy and key policies of the neighbourhood plan as established in 2020 remain integral to the overall approach.

ANNEX C

Review of Site Assessment Criteria

The Review Group (RG) looked carefully at the Site Assessment Criteria of the Felsted Neighbourhood Plan(FNP), which was formally made in February 2020 and, in particular, at the Specific Site Assessment Criteria, reported at 2.1.

The review concluded that the site assessment criteria, initially undertaken using the specific guidance written by Locality for use in neighbourhood planning, remained relevant, fit for purpose and reflective of the additional consultation work conducted by the Review Group.

As part of the general review process, the RG commissioned a new Housing Needs Survey (HNS) conducted by the Rural Community Council for Essex (RCCE). In addition to identifying housing need, the outcome of the survey was also factored into the considerations of site suitability. Central to this aspect of the review the need established by the HNS was for smaller homes and sites for the development of what might broadly be described as social housing. (The HNS is available in full on Felsted Parish Council website.)

Additionally, the RG analysed and noted the published reasons for refusal of planning applications in Felsted and the comments made by officers and planning inspectors since the plan was made.

In reviewing the site assessment criteria, the RG has been required to consider that, although technically at the time of the Review, Felsted remained a type A village, UDC, in anticipation of the acceptance the new UDC Local Plan, redesignated Felsted as one of eight new 'Large Villages' and made a housing allocation of 84 new homes to be constructed between 2024 and 2041.

Site Selection Criteria

NP Specific Criteria	Explanation and how this will be assessed
Is the site appropriate having regard to the Felsted Heritage and Character Assessment (FHCA)	Does proposed development conflict with any FHCA identified “Character Area Profile” with particular regard to “Positive Aspects of Character” and/or those aspects of a “Local Character Area” specific features identified under “Sensitivity to Change”?
Will the site help or reduce traffic congestion?	Do proposals have a potential to increase or decrease traffic or parking stress?
Will the site protect or enhance community facilities?	Do proposals include proposals to improve community facilities?
Does the proposal avoid coalescence between settlements?	Will proposals join separate settlements or reduce the open space between separate settlements. If so, could mitigation measures reduce visual impact?
Does the proposal represent a coherent extension to existing development?	Is site within VDL, outside VDL or adjacent to VDL. Is proposed development consistent with vernacular building grain for that area of Parish?
Where linear vernacular prevails, does the proposal avoid ‘back-land’ development	Is proposed development “back-land” i.e. Non-linear in an area where predominantly linear build grain is evident?
Does the proposal offer adequate accessibility	Is site accessibly on foot (i.e. Are there pavements leading to the site) and / or on a bus route or is site wholly dependent upon vehicular use?
Does the proposal conserve or enhance village heritage assets?	Does development impact negatively on any heritage asset either visually or through increased vehicular movements etc.?
Neighbourhood Plan Review consultation drop in sessions (March 2024) – local residents views.	Did the site receive support or objections during drop in sessions (March 2024)?
Does the proposal provide an appropriate mix and tenure of housing in relation to need?	Felsted’s population in relation to the national profile and the Uttlesford profile was comparatively much older at the time of the 2011 Census. The average (mean) age of residents was 41.8 years compared with an average (mean) age of residents across the district 40.6 years. 23.4% of the parish’s population was over the age of 65 at the time of the 2011 Census compared with 18.4% of the national population.

	<p>The 2024 Housing Needs Survey results, in terms of house types, indicate that the parish is well stocked with detached homes and under provided with smaller homes. This is illustrated by 57.2% being detached with a national average of 22.9%. The number of semi-detached homes is close to the national average with 32.1% in Felsted with 32.5% being the national average. Terraced homes are less prevalent in Felsted with only 6.3% and a national average of 23%.</p> <p>Together with the findings of the Felsted Housing Needs Survey published in 2024, the statistics above indicate a clear evidenced need for smaller homes to come forward in the parish during the plan period.</p> <p>In terms of affordable (or Social) housing needs in the parish, the Felsted Housing Needs Survey, completed in March 2024, Key findings and the recommended conclusion of the RCCE indicate a need for up to 9 affordable dwellings.</p> <p>Housing Needs Surveys are generally updated every five years</p>
